This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

+ *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.

+ *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.

+ *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.

+ *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. You can search through the full text of this book on the web at `http://books.google.com/`

Die Zusammenstellung aller über China erschienenen Arbeiten ist für den im fernen Osten wohnenden Fremden schon längst ein unabweisbares Bedürfniss. Gab es auch über einzelne Zweige, wie namentlich die sprachwissenschaftlichen, geschichtlich-erdbeschreibenden Schriften, ziemlich genaue bibliographische Zusammenstellungen, so ist doch die Litteratur über das Gesammtgebiet des chinesischen Reiches niemals erschöpfend behandelt worden.

Es wird gewagt erscheinen, dass eine solche Arbeit in China selbst, wo nur mässige Privatbibliotheken zu Gebote standen, unternommen worden ist, und sind wir uns der dadurch unabwendbar gebliebenen Mängel der nachstehenden Blätter wohlbewusst. Die Hauptlücken werden die kleineren Aufsätze aus Fachzeitschriften treffen, von welchen einzelne gar nicht, viele nur bändeweise eingesehn werden konnten; viele Titel haben nur aus zweiter Hand citirt werden können und dürften zahlreiche Ungenauigkeiten enthalten.

Dennoch treten wir mit der quasi unfertigen Arbeit an die Oeffentlichkeit, um einmal die empfindliche Lücke für das wissenschaftliche Publikum hier auszufüllen, und weil wir hoffen dürfen, dass durch die Veröffentlichung unsres Materials der Anstoss zu einer erschöpfenden Bibliographie Chinas gegeben werden wird. Es dürfte ferner die unsres Wissens zum ersten Mal versuchte Uebersicht des in Zeit-

Digitized by Google

schriften zerstreuten Materials, namentlich in den in China und in den englischen Colonien erschienenen, welche in Europa noch wenig bekannt und wenig zugänglich sind, auch für das europäische Publikum nicht ohne Nutzen sein. Die wenigen Zusätze und Bemerkungen haben wir, sowie die Ueberschriften, englisch gegeben, da das Publikum, für welches wir unser Buch hauptsächlich bestimmten, in überwiegender Majorität aus Engländern besteht.

Digitized by Google

Progress in science can only be achieved by making use of the materials collected, and by building upon foundations already laid. A knowledge of the literature becomes therefore an indispensable necessity. The present work is an effort to meet a desideratum in this respect, which as yet is unsupplied.

We have made use of the works mentioned under part I and have to thank N. B. Dennys, Ph. D., of Hongkong, for the liberal manner, in which he has placed the commencement of a similar work of his own at our disposal.

We are not aware, that any important work has been omitted, but should such be the case, criticism ought to be lenient, considering that the work was compiled in the centre of China (at Kiukiang and Peking) and with access to none but private libraries.

TABLE OF CONTENTS.

I. List of Works which formed the foundation of the present compilation 1

A. Chinese Language and Literature.

II. Grammars 2
III. Dictionaries 6
IV. Dialogues, Handbooks &c. 11
V. Translations:
a. With Chinese Text 16
b. Without Chinese Text 21
VI. Philological Treatises 45
VII. Literature 64
VIII. Chinese Characters and Printing 72
IX. Serials 77

B. The Chinese Empire.

X. History and Chronology 82
XI. Geography and Travels:
a. General Geography and Topography, Population, Statistics 94
b. The Open Ports ... 104
c. Peking 109
d. Chusan 111
e. Formosa ..... —
f. Hainan 114
g. Maps 115
h. Travels 117
XII. Natural History:
a. General 138
b. Climatology, Geology, Mineralogy 139
c. Botany 142
On Tea 148
d. Zoology 149
Appendix: Medical Observations 156
XIII. China and the Chinese:
a. General description of the Empire... 157
b. Government, Law, Army 170
On Coinage and Coins 178
c. Customs and Manners 180
d. Arts, Industry, Agriculture 191
Silk manufacture, Rearing of Silk Worms 197
e. Sciences 198
f. Religions:
1. General, Con-
